EDUCATION

2009-2019

DHARMAPALA VIDYALAYA KOTTAWA

- G.C.E Ordinary Level Examination
- 6A,1B,2C

2020 - 2022

DHARMAPALA VIDYALAYA PANNIPITIYA

- G.C.E Advanced Level Examination
- 2B,1C

2023 - 2025

CARDIFF METROPOLITAN UNIVERSITY

- Software Engineering Undergraduate

SKILLS

- REST-API with Node.js & Express.js.
- Database Management with MySQL and mongoDB.
- API Integration
- version control & Deployment
- HTML , CSS , JS, react.js

PROFILE

Aspiring software engineer seeking a fullstack developer internship to apply knowledge, contribute to impactful projects, and grow in a professional development environment

PROJECTS

psychic Web Application

Fullstack Development [MERN-Mysql] -PRESENT

- Database Design & Implementation: Designed an ER diagram, normalized it, and created a MySQL database to efficiently manage data for my e-commerce clothing brand, Psychic.
- Fullstack Development: Developed the frontend UI with Draw.io, React, and CSS, and built backend APIs with Node.js and Express, implementing full CRUD operations.
- Deployment & Version Control: Managed the project with GitHub for version control and deployed the web application on Vercel for a cost-effective, production-ready solution.

Ceylon tours

Backend Developer & system analysis [MERN]

- Backend Development: Designed and implemented server-side APIs, handled CRUD operations, and integrated the database using MongoDB and Express.js, ensuring smooth communication between frontend and backend.
- System Analysis & Design: Conducted full system analysis, created ER diagrams, normalized data, and designed the overall architecture of the platform to support features like booking guides, hotels, transporters, and personalized tour plans

Other Web Applications:

Fullstack Development [HTML,CSS,JS,MYSQL,PHP]

- Care Compass Hospital Web Application
- Fitzone Fitness Web Application
- My Portfolio
